September 2021 Project
Entry Wall Plaques

This month the focus is on Black and White outline products. There are three entry hall plaque design templates for your personal use to practice the steps, tips, and use of this non-enamel product.

Product options include White Outline and Black Outline from Unique Glass Colors, Hues 2 Fuse Texture Black and Texture White, or Black and White Outline from Colors for Earth. All three of these products work and apply the same for monthly project.

The video demonstration here is to be used in conjunction with the attached PDF file which includes materials and supply list, the steps, firing schedules, pattern guides, and of course resources.
